Testimonial

Dear Mr. Sammartino:

Although this letter is quite late I still would like to thank you and your employee Steve who installed my Home Depot kitchen in February. I couldn't be happier with the end result. It suits us perfectly.

Would you pass it on to Steve how much we appreciated the fine work that he did. I'm especially pleased with the tile backsplash. And with the tiles that were left over I've used them to make a chair rail around the rest of the kitchen and then trimmed it all out with decorative wood moldings.

Thank you again,
John and Marylou
